PROFESSIONAL OVERVIEW

An enthusiastic CSE student blending analytical thinking with creative web development. Passionate about turning messy data into clear stories and building intuitive digital experiences. Seeking an opportunity where data insights and user-friendly design come together to solve real business problems.

WORK EXPERIENCE

Web Development & Digital Marketing Intern - Layerscode Technology
Worked on building responsive web pages and supported digital marketing activities such as social media content, SEO tasks, and campaign support.

Data Analytics Intern – Skillfied Mentor
Worked on data cleaning, visualization, and basic analysis using tools like Excel and Power BI. Gained hands-on experience with real-world datasets and reporting.

PROJECT

E-Commerce Food Court Website (Frontend) - Built a responsive food ordering interface with product display, add-to-cart functionality, and dynamic UI using HTML, CSS, JavaScript

Sales Data Analysis Project - Performed data cleaning, preprocessing, exploratory data analysis (EDA), and visualization on sales datasets using Python, Pandas, Matplotlib, and Seaborn. Generated actionable insights on sales trends, product performance, and regional metrics to support data-driven business decisions.

CERTIFICATION

Introduction to SQL – Simplilearn [Sep 2024]

Python – Udemy [Mar 2024]

Data Analytics Course – Udemy [Nov 2025]

Power BI Masterclass – Novitech Private Limited [Sep 2025]
